## IBM Feature Activation Instructions

**FoD option: IBM Integrated Management Module Advanced Upgrade**

**Option P/N or Product ID: 90Y3901**

**Feature code: A1ML**

**Quantity ordered: 1**

**Plant order: K1XGPP**

**Sales order: 2077025420**

**Authorization code: D9ZHBAAAAAAAAA0870998159**

To activate your FoD option, complete the following steps:

1. Locate the authorization code at the top of this document.
2. Make sure that you have access to the hardware that you want to activate.
3. Login at <http://www.ibm.com/systems/x/fod/>.
4. Select **Request activation key** from the left navigation pane.
5. Enter the authorization code and click **Continue**.
6. Follow the instructions on the web page to activate the Features on Demand option and verify that the request is successful.

The activation key file is sent to the email address that you provide during the activation process.

For more detailed information, including instructions for automating the activation and installation of the activation key by using IBM ToolsCenter or IBM Director, see the *Features on Demand - User's Guide* at <http://www.ibm.com/systems/x/fod/> under Help section.

If you require additional assistance, contact your IBM marketing representative or authorized reseller.
