

Section 3

INTERNATIONAL CYLINDER

Key Blanks designed for locks used primarily outside of North America. Manufacturers are listed in alphabetical order and keys are listed by manufacturer in a numerical order where possible.

Throughout this section you will notice . This symbol indicates that a special key machine is required to cut that blank.

Some keys in this section are marked “DISCONTINUED”, however they may still be available from Ilco distributors. We have left these in this directory for your reference.
