Time Portals & Dimensional Lock System

Star Gates and Portals exist as Black & White Hole Pairs that are connected at the center by a scalar frequency Seal. When the Star Gates or Portals Activate, the center seal releases and the spiral pair merge to form a Merkaba Field.

Primal Light Field
Density 5 Dim 13-14-15

Vertical Axis Star Gates link the Planetary, Galactic, and Universal Templar Complexes through the 5 Harmonic Universes and their 5 inherent Matter Density levels.

Portals and Star Gates

When Star Gates and Portals activate, the counter-rotating electromagnetic spiral pair merges to form a Merkaba Vehicle, its center becomes a "Form Constant" Still Point that links various Space-time locations directly to each other, creating a trans-time bridge.

Vertical Axis spiral pairs form the Star Gates of the Dimensional Lock System, which permit passage between space-time locations in multiple Universes and Density Levels.

12 Primary
Universal Star Gates
of Universal Templar

Horizontal and Diagonal Axis spiral pairs form the Portals of the Time Portal System, which permit passage between space-time locations in one Universe and One Density Level.

In all Natural Christiac Eternal Life Merkaba Spiral Sets, one Spiral spins Clockwise circulating Life Force into Manifest Expression, while the other Spiral simultaneously spins *Counter-clockwise* circulating Life Force back out of Manifestation in return to God-Source, for renewal. The Merkaba Spiral Sets are Ordered Wave Form Structures through which Consciousness, as Primal Life Force Current, *perpetually circulates* into and out of Manifestation.
